Basketball — Answer Key

Did you know?

- Basketball was invented in 1891 by Dr. James Naismith, originally using peach baskets as the goals.
- A standard basketball hoop is set at exactly 10 feet high, a height that has stayed consistent since the sport's early days.
- The three-point line, now a major part of modern basketball strategy, wasn't introduced to the NBA until the 1979-80 season.
- Basketball is played and watched in nearly every country in the world, making it one of the most globally popular team sports.
