Did you know?

- Coffee beans are actually the pit of a fruit called a coffee cherry, not a bean in the botanical sense.
 - Tea, despite its many varieties, almost all comes from the leaves of a single plant species, processed differently for each type.
 - Espresso gets its name from being brewed quickly under pressure, not from any specific bean or roast level.
 - Decaffeinated coffee still contains a small amount of caffeine, just significantly less than a regular cup.
-
