NECTAR

SANGRIA

SELTZER

TONIC

Drinks — Answer Key

Did you know?

- Tea and coffee are both among the most widely consumed beverages in the world, after water itself.
- Carbonated drinks get their fizz from carbon dioxide gas dissolved under pressure into the liquid.
- Milk's natural sugar, lactose, is the compound some people have difficulty digesting, a condition called lactose intolerance.
- Fruit juice can lose some of its vitamin content over time, especially once exposed to air and light.
