TURKEY

Farm Animals — Answer Key

Did you know?

- Cows have a four-chambered stomach that lets them digest tough grass other animals couldn't break down.
- Pigs are considered one of the more intelligent farm animals, often compared to dogs in problem-solving ability.
- A single chicken can lay close to one egg a day under the right conditions.
- Sheep's wool grows continuously throughout their lives, which is why they need to be sheared regularly.
