CRANBERRY

FIG

GUAVA

LYCHEE

NECTARINE

PAPAYA

PINEAPPLE

PLUM

POMEGRANATE

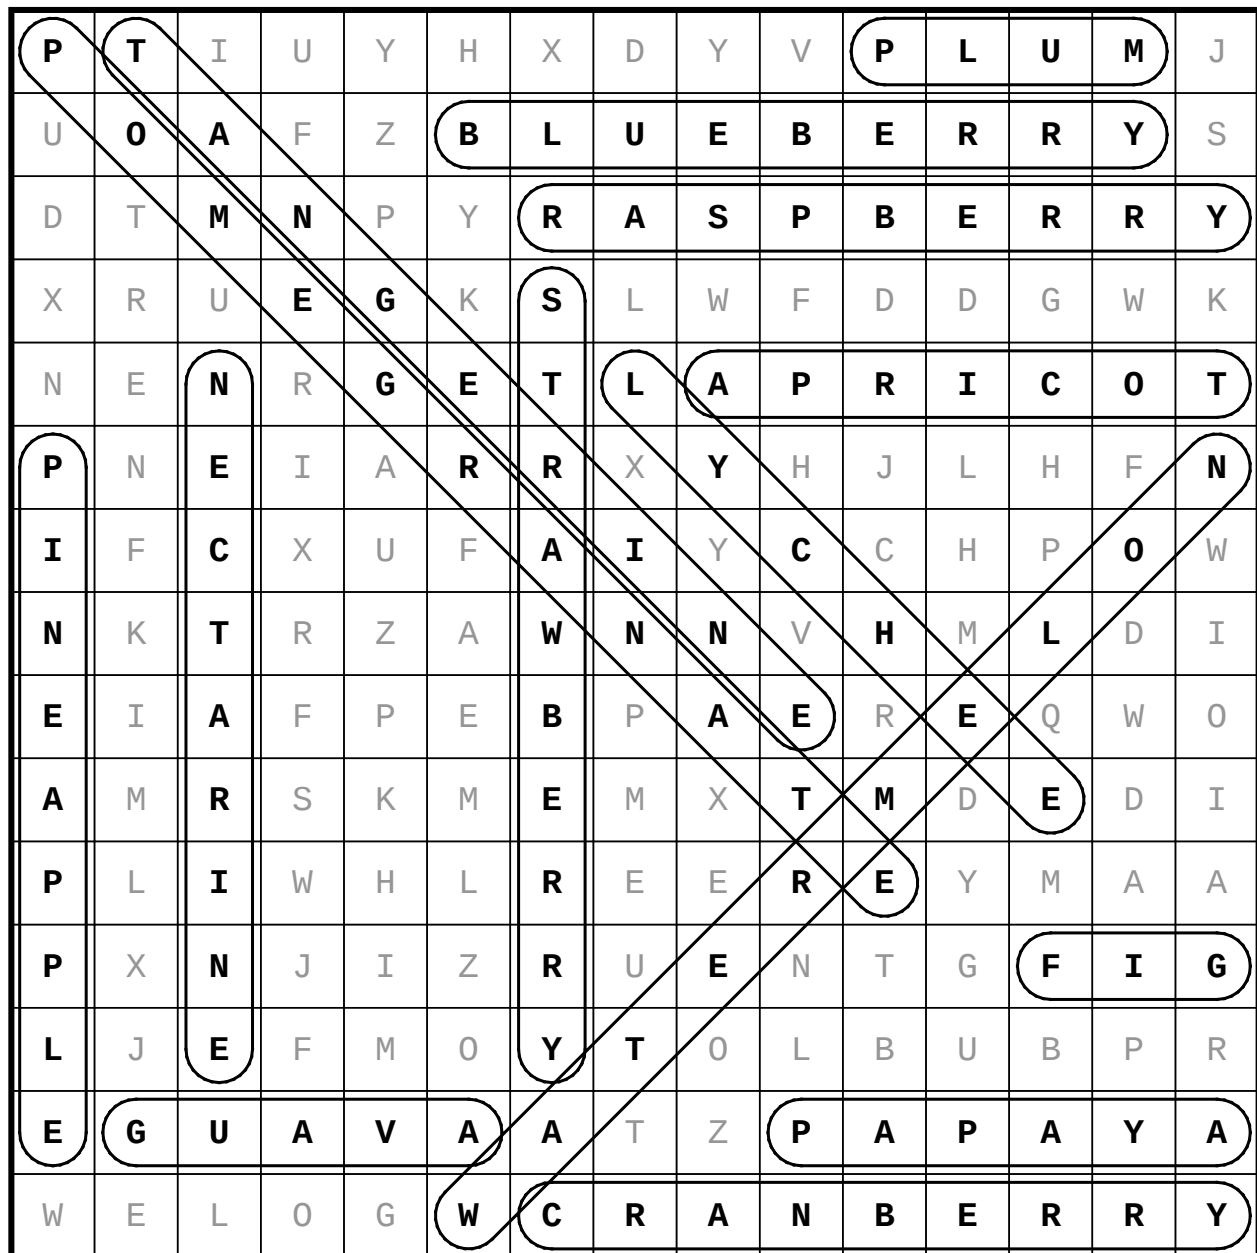

RASPBERRY

STRAWBERRY

TANGERINE

WATERMELON

Fruits — Answer Key

Did you know?

- Botanically speaking, tomatoes, cucumbers and avocados are all technically fruits, since they develop from a flower and contain seeds.
- Bananas are berries in the botanical sense, while strawberries technically are not.
- Apples float in water partly because they're made up of about 25 percent air by volume.
- Citrus fruits like oranges and lemons are especially high in vitamin C, historically used to prevent scurvy on long sea voyages.
