KJV Bible Words — Answer Key

Did you know?

- The King James Version was first published in 1611, after King James I of England approved a new English translation of the Bible in 1604; a team of about 50 scholars worked on it.

- In King James English, thou, thee and thy are the singular forms of you, while ye and you are plural, a distinction that modern English has lost.

- Hath and spake are older forms of has and spoke: the KJV uses endings such as -eth and -est where modern English uses plain verbs.

- The KJV spells steadfast as "stedfast" and writes compounds such as lovingkindness and longsuffering as single words.
