CARDIOLOGY	HOSPITAL	PATHOLOGY	TREATMENT
CHRONIC	HYPERTENSION	PATIENT	VACCINE
CIRCULATORY	IMMUNIZATION	PRESCRIPTION	XRAY
CLINIC	INFECTION	RADIOLOGY	

Medical Terms — Answer Key

Did you know?

- The stethoscope was invented in 1816 by French physician René Laennec, originally made from a rolled paper tube.
- Antibiotics only work against bacterial infections, not viral ones, which is why they cannot treat illnesses like the common cold.
- The word "quarantine" comes from the Italian "quaranta giorni," meaning forty days, the length ships were once held offshore during plague outbreaks.
- Vaccines work by training the immune system to recognize a pathogen without causing the actual disease.
