North America — Answer Key

Did you know?

- North America includes 23 countries, ranging from Canada, the second largest country by area, to small island nations in the Caribbean.
- The Great Lakes, located between the United States and Canada, together hold about one-fifth of the world's fresh surface water.
- Mexico City is built on the site of a former lake, part of why parts of the city have gradually been sinking.
- The Grand Canyon, one of the continent's most famous landmarks, was carved over millions of years by the Colorado River.
