Did you know?

- The saying "April showers bring May flowers" has been traced back for centuries, though the exact wording has shifted somewhat over time.
- The distinctive smell after rain has its own real, specific name: petrichor.
- Meteorologists measure rainfall precisely, typically in inches or millimeters collected in a standardized rain gauge, not just by general impression.
- A rain shadow is a real geographic effect where mountains block moisture, leaving the land on the far side noticeably drier than the side facing the storms.
