Reindeer — Answer Key

Did you know?

- Real reindeer, unlike the flying version in legend, are found across Arctic and subarctic regions of the world.
- Both male and female reindeer can grow antlers, unlike most other deer species where only males typically do.
- The names of Santa's reindeer first appeared together in a 19th-century poem, with Rudolph added decades later in a different story.
- Reindeer are the same species as caribou, though the two names are used somewhat differently depending on the region.
