Wedding and Romance — Answer Key

Did you know?

- The tradition of wearing a wedding ring on the fourth finger of the left hand traces partly to an old European belief in a vein running directly from that finger to the heart, a belief now known to be anatomically incorrect.
- Wedding ceremonies and traditions vary enormously across cultures, even though many share some common elements like an exchange of vows or rings.
- Engagement proposals and weddings themselves are two genuinely distinct life events, each with their own separate traditions and vocabulary.
- Anniversaries are traditionally associated with specific gift materials in many Western cultures, like paper for a first anniversary, though the exact list has varied over time.
